

4th Annual Training Workshop

Basic and Specialized Techniques in Protein Chemistry and Mass Spectrometry

August 21st – August 25th, 2017

Training will include:

Protein in-gel, on-bead and in-solution digestion, BioID and IP sample preparation, Peptide digest clean-up, Phosphopeptide enrichment and analysis, 'Deep Proteomics' strategies, Bioinformatics of complex mass spectrometry data.

Mass spectrometry and LC-MS training:

QTOF (nano-LC-MSMS), Orbitrap (Q-E HF nano-LC-MSMS).

Guest lecturer: Brett Larsen, Mass Spectrometry Coordinator,
Lunenfeld-Tanenbaum Research Institute

*Organizers: Dr. Jason Young, Dr. Kurt Dejgaard, Amy Wong, Lorne Taylor,
McGill University Dept. of Biochemistry*
