MEDICAL GENETICS ACADEMIC HALF DAY
May 4, 2018, MUHC Glen Site, Room B 02.9390
[Sessions will be teleconferenced to the JGH, Room H-347.]

9:00 – 10:00 Genetics Rounds
[Hosted by Dr. Guy Rouleau and the MNI Neurogenetics team]
Ziv Gan-Or, MD, PhD
Assistant Professor
Department of Neurology & Neurosurgery
Montreal Neurological Institute
Department of Human Genetics
GBA in Gaucher’s and Parkinson’s Disease: From a Genetic Controversy to Potential Treatment

Learning objectives:
Participants will be able to:

- Identify issues in genetic study design that may lead to wrong conclusions, using the example of GBA in Parkinson’s disease
- Describe the current knowledge on the role of GBA in Gaucher’s and Parkinson’s disease

10:00 – 11:00 Journal Club
Natascia Anastasio, MSc, MD
PGY4, Chief Resident in Medical Genetics
Looking beyond the exome: a phenotype-first approach to molecular diagnostic resolution in rare and undiagnosed diseases

11:00 – 12:00 Resident Teaching
Josée Lavoie, PhD, FCCMG
Director, Cytogenetics Laboratory
McGill University Health Centre
Assistant Professor, Departments of Pathology and Human Genetics
Chromosome instability syndromes

The Medical Genetics Academic Half Day is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada.

Do not hesitate to contact me should you have any questions.

Bobbie Carin
Administrative & Student Affairs Coordinator
Medical Genetics, Room B RC.6362, ext. 23240
