Using little data and big data to personalize medicine
Dr. Dan Roden
Click here for more info

Thursday, April 20, 11:30 a.m. - 12:30 p.m.
Infection and Immunity Seminar Series
Helminths, wound healing and worm expulsion
Dr. William Gause
Click here for more info

Thursday, April 20, 12:00 - 1:30 p.m.
Meet and Greet of McGill Employees with Disabilities and Their Allies
Infectious Diseases and Immunity in Global Health (IDIGH) Program Research Day
This Research Day will showcase the research of IDIGH Program trainees (graduate students and post-doctoral fellows) and is designed as a platform for our trainees to communicate their research findings, and importantly, to receive valuable feedback from the diverse scientific community that makes up the IDIGH program. Click here for more info.

April - December
Free Mini-Course Developed and Accredited by the McGill Continuing Professional Development (CPD) Office
Learn about new cancers that are frequently overlooked. Online, asynchronous, and flexible course offered in 3 modules. This course will focus on myeloproliferative neoplasms (MPN) and myelodysplastic syndromes (MDS) via webinars and online course readings. Registration Deadline: June 1. Click here for more info.

Should you have an event to include in Med Events, please send the web link with all details (date, time, location, event title and contact information) at least 2 weeks prior to the event.
Note: due to the large volume of requests that we receive, events will be included on a first-come, first-served basis. Send requests to: med-events.med@mcgill.ca
