Monday, February 19 – March 23
Exhibition | Vaccination: Fame, Fear and Controversy, 1798-1998
Since its earliest days, vaccination has been accompanied by hesitation, resistance and controversy. Why did an innovation that promised to rid the world of the terrible scourge of smallpox inspire such enduring fear? This exhibition explores the tension between the promised public-health benefits of vaccination and the resistance to its acceptance.
Curated by Cynthia Tang and Rob Boddice
