

GPS – Graduate & Postdoctoral Studies

OFFICE OF THE DEAN

Postdoctoral Fellowship in Understanding
Dynamic and Multi-scale Systems

- Please inform your PhD students near the end of their degree
- Postdoctoral Fellowship opportunity
- Deadline to apply: **June 15, 2018**

The **James S. McDonnell Foundation (JSMF)** has posted updated guidelines for the **2018 21st Century Postdoctoral Fellowship in Understanding Dynamic and Multi-scale Systems**.

The Fellowship

- The JSMF Fellowship is intended to provide **students in the final stages of completing a PhD**. degree more freedom in identifying and securing postdoctoral training opportunities in complex systems research.

Award Details

- \$200,000 USD to be expended in 2-3 years
- JSMF could support up to 10 Fellowships each year

Eligibility

- Students should not already have a Ph.D. but be on track to complete all degree requirements and be ready to start their first postdoctoral fellowship between June 2019 and February 28, 2020.
- Applicants should not have already identified a postdoctoral position and a postdoctoral research mentor.
- Candidates from any country are eligible to apply.
- JSMF Fellowships can only be used to support postdoctoral training at a qualified institution.

Application Process and Deadline

- Applications and letters of support will be accepted online beginning May 1, 2018.
- For all application information, please visit the [James. S. McDonnell Foundation website](#)
- The deadline to submit all application materials is **June 15, 2018, 15:59 CDT (20:59 UTC)**.
