GRADUATE FUNDING

Canada Graduate Scholarship Master's (CGS M)

- **REMINDER** to Applicants
- Upcoming deadline: **December 1 by 8:00 P.M. E.T.**

Canada Graduate Scholarships – Master's (CGS M)

The Canada Graduate Scholarships-Master's (CGS M) Program is to help develop research skills and assist in the training of highly qualified personnel by supporting students who demonstrate a high standard of achievement in undergraduate and early graduate studies. The CGS M Program supports up to 2,500 students annually in all disciplines and is administered jointly by Canada's three federal granting agencies: CIHR, NSERC and SSHRC.

How to Apply

To apply to the CGS M Program, applicants must complete and submit an application using the Research Portal.

Applicants should consult the [Canada Graduate Scholarships-Master's Program Instructions for Completing an Application](#).

The Research Portal will instruct applicants to select up to three (**new**) institutions where they intend to hold the award. Applicants must **only** select institutions where:

- they are currently admitted or enrolled full-time in an eligible program of study and intend to pursue their studies; or
- applied for full-time admission to an eligible program of study by the deadline set for their intended graduate program.

We would like to draw your attention to some points of interest regarding the Canada Graduate Scholarship Program at the Master's level (CGS M).

Past experience has shown that many applications not submitted in time were missing the required reference assessments. A tutorial video for [Canada Graduate Scholarships Master's Instructions for Completing a Reference Assessment Form](#) is available. We encourage applicants share with references to ensure that their assessments are linked to applications well in advance of the deadline.

Graduate & Postdoctoral Studies requires that all transcripts from academic institutions listed on the student's Canadian Common CV (CCV) be "official" including transcripts to support transfer credits.

Incomplete, incorrect, applications and late recommendations are not acceptable and will not be forwarded to the GPS Central Selection Committee.

Application deadline (date by which the complete application must be submitted by the applicant): **December 1, before 8:00 p.m. (ET)**. Applications must be submitted by the deadline using the [Research Portal](#).

Note: **All** university transcripts must be uploaded by the student; meaning, this includes McGill University transcripts – neglecting to upload, will automatically deem ineligibility of the application.

Mark your calendars!

Best,

Ross
